

teampraxis a-z  
dr. allgaier dr. zalto

Dear Patient ,

for a specific reason we have chosen the name teampraxis (team private clinic). In offering the best service possible we, Klaus Zalto M.D and Bettina Allgaier M.D, cooperate as a team - in favour of our patients.

Being a team we are able to respond to your problems in the appropriate way due to different subspecializations which we are specialized in - never the less we shall always give you the personal and private atmosphere to talk to your chosen Gynae.

If you chose our consultations we shall be there for the different phases of your life, help or support you in case of illness and give emergency care 24 / 7 as we are the **teampraxis a - z**.

We know that time is precious these days and everybody is in a constant hurry.

When you visit us for your consultation you will see that through the well chosen ambience as well as the warm welcome by our receptionist and last but not least us Gynaes time is just for you. There is always enough time for you to talk and forward your questions. We have time and it is for you to decide how much you want to use of it.

Through 20 years of experience and international education in the field of medicine we know we will not be able to solve all your problems or always give you cure from every disease but we can offer time and will be committed to you and your needs.

Our anglo - saxon medical background will help you to be treated in the most efficient state of the knowledge way. In case of further specialist need we will be able to refer to national or international renowned colleagues. As much as we have seen in medicine, in suffering, we know we gained a lot of experience but one of us will never be as good as two of us, sharing our experience for your wellbeing.

We hope to see you in our clinic!

**your teampraxis a-z**

Bettina Allgaier and Klaus Zalto
